

Year 6 SATS Revision - How can you help at home?

Reading

Regular reading of a range of text types is ESSENTIAL. Stamina is key and children need to be regularly reading to ensure they can cope with longer texts.

Comprehension style questions will be set for your child on our new reading resource Oxford Reading Buddy. The children will get chance to practice using the website in school.

<https://www.oxfordreadingbuddy.com/uk>

There are many excellent reading revision books available for a small cost.

Maths

Arithmetic

The children need to be secure in all four operations involving fractions, decimals and percentage. This website mirrors the Y6 Arithmetic SAT test exactly and provides different questions each time you open a new page.

Reasoning and Problem Solving

Children need to then apply their mathematical skills to a range of reasoning and problem solving questions. This also incorporates other areas of maths such as geometry, measure, statistics and algebra. Each child has a log in to maths.co.uk and I will set regular reasoning and problem-solving revision for them to complete.

SPAG

Children need to know the majority of the Year 5/6 spelling list. They were sent home a copy where any spellings they were not secure with have been highlighted. If you need a new copy, please do let me know. They can practice these spellings on a range of spelling games. The best ones are:

<https://ictgames.com/mobilePage/lcwc/index.html>

<https://ictgames.com/mobilePage/spookySpellings/index.html>

<https://wordwall.net/en-gb/community/y5/6-spellings>

For the Grammar Punctuation and Spelling paper element, there are many good workbooks available at a small cost.
